AMENDMENTS TO THE SPECIFICATION

Please replace paragraph [0016], on page 4 of the specification with the following rewritten paragraph:

[0016] FIGURES 7A and 7B graphically depict the results of the study carried out in Example 7 wherein percent motility and percent progressive motility of sperm are measured for sperm unstained or stained with 60 μ M Hoechst 33342 dye at [[39°C]] 41°C and 43°C.
